### Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

| S.No | Feature Name                   | Description                                                            | Status      | Demonstrated | Remarks                                                |
|------|--------------------------------|------------------------------------------------------------------------|-------------|--------------|--------------------------------------------------------|
| 1    | Applicant Data Entry           | Collects applicant details required for loan evaluation.               | Implemented | Yes          | Successfully demonstrated using the web interface.     |
| 2    | Data Preprocessing             | Processes and prepares user input before prediction.                   | Implemented | Yes          | Input data is validated and transformed correctly.     |
| 3    | Loan Eligibility Prediction    | Predicts loan approval using the trained XGBoost model.                | Implemented | Yes          | Displays <b>Approved</b> or <b>Rejected</b> instantly. |
| 4    | Model Comparison               | Compares Decision Tree, Random Forest, KNN, and XGBoost models.        | Implemented | Yes          | XGBoost selected based on highest accuracy.            |
| 5    | User-Friendly Web Interface    | Provides an interactive Flask-based application for users.             | Implemented | Yes          | Easy-to-use interface with prediction results.         |
| 6    | Demo Video & GitHub Repository | Project demonstration and source code shared through video and GitHub. | Implemented | Yes          | Repository and demo video submitted successfully.      |

**Feature Implementation Summary:**

|                                 |      |
|---------------------------------|------|
| Total Features Proposed         | 6    |
| Total Features Implemented      | 6    |
| Total Features Demonstrated     | 6    |
| Overall Implementation Rate (%) | 100% |
