

Project Demo Planning

Date	4 July 2026
Team ID	XXXXXX
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the Smart Lender project, objectives, and the need for automated loan approval prediction.	2	Team Member 1
2	Solution Overview	Explain the system architecture, dataset, machine learning models, and why XGBoost was selected.	3	Team Member 2
3	Model Demonstration	Demonstrate applicant data entry and show real-time loan prediction (Approved/Rejected).	4	Team Member 3
4	Project Structure & GitHub	Explain the project structure, source code organization, and GitHub repository.	2	Team Member 1
5	Testing & Demo Video	Present testing results, screenshots, and demo video of the application.	2	Team Member 2
6	Conclusion & Future Scope	Summarize the project and discuss future enhancements and applications.	2	Team Member 3

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for machine learning in loan approval prediction.
2	Solution Overview	Describe the dataset, preprocessing, ML models, and system workflow.
3	Live Feature Demonstration	Show applicant data entry and display Approved and Rejected prediction results using the Flask application.
4	Q&A Session	Answer questions related to the project, model selection, implementation, and future improvements.
