

Initial Project Planning Template

Date	3 July 2026
Team ID	xxxxxx
Project Name	Smart Lender
Maximum Marks	5 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create a product backlog and sprint schedule

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	Data Collection & Architecture	USN-1	As a developer, we can collect the loan prediction dataset and design the Smart Lender application architecture to prepare the project for development.	2	High	Greshma, Amrutha, Lakshmi suditha	29-06-2026	29-06-2026
Sprint-2	Data Analysis (EDA)	USN-2	As a developer, we can perform exploratory data analysis (EDA) using univariate, bivariate, and multivariate analysis to understand the dataset.	1	High	Greshma, Amrutha, Lakshmi suditha	30-06-2026	30-06-2026
Sprint-3	Data Preprocessing	USN-3	As a developer, we can preprocess the dataset by handling missing values, encoding categorical features,	2	Low	Greshma, Amrutha, Lakshmi suditha	01-07-2026	01-07-2026

			balancing the data with SMOTE, scaling features, and splitting the dataset into training and testing sets.					
Sprint-4	Model Building & Evaluation	USN-4	As a developer, we can train Decision Tree, Random Forest, KNN, and XGBoost models, evaluate their performance, and save the best-performing model.	2	Medium	Greshma, Amrutha, Lakshmi suditha	02-07-2026	02-07-2026
Sprint-5	Flask Application & Frontend Development	USN-5	As a user, I can enter my loan application details through the web interface and receive an instant loan eligibility prediction generated by the machine learning model.	1	High	Greshma, Amrutha, Lakshmi suditha	03-07-2026	03-07-2026
Sprint-6	Testing, IBM Cloud Deployment & Documentation	USN-6	As a developer, we can test the complete Smart Lender application, deploy it on IBM Cloud, and prepare the final project documentation for submission.	3	High	Greshma, Amrutha, Lakshmi suditha	04-07-2026	04-07-2026
